Our are stocked with estables and drinkables most suitable for the hot weather. Our great volume of business insures the absolute freshness of all articles of food. From the producer direct to the family is our method. That is the secret of the success of the Butler system. It entirely eliminates the middlemen, with their delays in handling and all their extra profits. This explains why our prices are so low, and why our customers save in the aggregate more than a million dollars a year. The "trade" may grumble, but our customers are happy, and we are contented, because our business grows and expands day by day. We give below a few sample prices. No matter what your household wants may be in our line, we can satisfy them on the same profit sharing, low-priced basis.
